💡 Professional Summary

Passionate and detail-oriented **Full-Stack Developer** with strong experience in **PHP, JavaScript, Python, and MySQL**, building high-quality, responsive, and scalable web applications. Skilled in creating modern user interfaces using **Tailwind CSS** and implementing robust backends with clean, secure, and maintainable code.

I've led and developed multiple end-to-end systems — from business management platforms to study planners — and I'm eager to deliver the same high standards to global clients through Toptal.

🧠 Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, React (basic)

Backend: PHP (Core & OOP), Python (Flask basics), Node.js (introductory)

Database: MySQL, MS SQL Server

Tools & Platforms: Git, VS Code, XAMPP, REST APIs, JSON

Other: Responsive Design, Authentication, CRUD Operations, MVC Structure, SQL Optimization

💼 Projects

1. Study Plan Management System (PHP + MySQL + Tailwind)

- Built a multi-user system for tracking exams, deadlines, and milestones.
- Integrated countdowns, progress tracking, and user-specific dashboards.

2. Social Security Number Management System (Java AWT + Swing + MS SQL)

- Developed a desktop application with database connectivity and admin control panels.

3. Class Scheduling Management System for Hilcoe (C# + .NET + SQL Server)

- Designed automated class scheduling with conflict resolution and announcements.

4. Food Recipe Website (Vue + Nuxt + Go + PostgreSQL)

- Built a modern recipe-sharing platform supporting likes, comments, ratings, and JWT authentication.
