 Portfolio: [natnael22sds.github.io/Natnael\\_Mitiku\\_Portfolio](https://natnael22sds.github.io/Natnael_Mitiku_Portfolio)

---

## Professional Summary

Passionate and detail-oriented **Full-Stack Developer** with strong experience in **PHP, JavaScript, Python, and MySQL**, building high-quality, responsive, and scalable web applications. Skilled in creating modern user interfaces with **Tailwind CSS** and implementing robust backends with clean, secure, and maintainable code.

I have led and developed multiple end-to-end systems—from business management platforms to study planners—and I'm eager to deliver the same high standards to global clients through Toptal.

---

## Technical Skills

**Frontend:** HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, React (basic)

**Backend:** PHP (Core & OOP), Python (Flask basics), Node.js (introductory)

**Database:** MySQL, MS SQL Server

**Tools & Platforms:** Git, VS Code, XAMPP, REST APIs, JSON

**Other:** Responsive Design, Authentication, CRUD Operations, MVC Structure, SQL Optimization

---

## Projects

### 1. Study Plan Management System – *PHP, MySQL, Tailwind*

- Multi-user system for tracking exams, deadlines, and milestones
- Integrated countdowns, progress tracking, and user-specific dashboards

### 2. Social Security Number Management System – *Java AWT, Swing, MS SQL*

- Desktop application with database connectivity and admin control

### **3. Class Scheduling Management System for Hilcoe – C#, .NET, SQL Server**

- Automated class scheduling with conflict resolution and announcements

### **4. Food Recipe Website – Vue, Nuxt, Go, PostgreSQL**

- Recipe-sharing platform with likes, comments, ratings, and JWT authentication

### **5. Hospital Appointment System**

- End-to-end Zocdoc-style system with booking, scheduling, and integrated payments

### **6. E-commerce Website**

- Full-featured shopping platform with secure payment processing and smooth user experience

### **7. Event Planner**

- Comprehensive event management system for scheduling and client management

### **8. Cupcake Inventory System**

- Inventory management with stock tracking, automatic deductions, and sales reporting

### **9. Tesla Clone App**

- Frontend-only Tesla clone app featuring vehicle selection and booking

### **10. AI-Powered Customer Support Chatbot**

- Provides instant assistance, learns over time, and improves user satisfaction

## **Education**

**BSc in Computer Science** — Hilcoe School of Computer Science and Technology  
(3rd-Year Student, expected graduation: 2026)

---

## Strengths

- Excellent problem-solving and debugging skills
  - Strong UI/UX sense and backend logic design
  - Fast learner, consistent, and proactive communicator
  - Time-zone flexible for international clients
- 

## Availability & Rate

- Full-time / Part-time Remote
-  \$40/hour
